**"HAPPY NEW YEAR" FOR JEWS WILL BEGIN THIS EVENING**

With the going down of the sun this evening the Jewish year 5672 will take its place in history and the "happy New Year" 5673 will be ushered in with joy and gladness mingled with penitence and prayer. Rosh Hashonah as the Jewish New Year is called, begins a series of feasts and fasts that will be fittingly observed by the Jewish population of this city, and throughout the world. Orthodox Jews will devote two days to the celebration of Rosh Hashonah, but the reformed Jews will observe only one day ending at sundown tomorrow.

The Hebrew year just closed was an ordinary perfect year of 355 days, but the year 5672 will be an embolismic year of 356 days. The month of Tishri, of which tomorrow will be the first, but Tishri is the first ecclesiastical month. Three days after New Year comes the Feast of Tabernacles, and six days later comes the Fast of Expiation or Yom Kippur, the most sacred of all Jewish holy days.

The one or two days of Rosh Hashonah beginning at sundown tonight, will be a general holiday for all of the Jewish population, and the celebration of Rosh Hashonah is a time when the Jewish labor is largely employed with the making of a standstill, and throughout the month of September, and the early part of October the output of clothing and garment factories will be greatly reduced. The postmen of the big cities will stagger under immense loads of New Year cards.

It is the belief of orthodox Jews that on Rosh Hashonah the books in which the fates of the righteous and the wicked are recorded are thrown open for new entries, and that the penitential ten days following New Year gives the sinner a chance to repent and give ways and to have their names written among the righteous. If they do not take advantage of the opportunity, "Let them be blotted out of the book of the living and not be written with the righteous."

In New York the world's greatest center of Jewish population, the worshippers at the synagogues tomorrow will for the first time in history include a new feature. The Jewish attorney was recently admitted into full fellowship with those of the Jewish faith.

An interesting feature of tomorrow's observance of New Year, among the very orthodox who hold to the ancient traditions, will be the Tashklich ceremony. The faithful gather on the shores of a running stream and cast bread crumbs upon the water, while penitential prayers are offered and verses are recited. In many cities the Jews have abandoned this feature, but it is still carried out in New York, where the ceremony is usually held on the Brooklyn Bridge.

Since man first devised a calendar, New Year's Day has always been marked by feasting and rejoicing, while the Jews have observed it with a fast. The Jewish method of reckoning time is from sundown to sundown, in accordance with the order of the Bible, the biblical account of the creation. The Jewish cycle in nineteen years exceeds the Gregorian by two hours, eight minutes and a second. Before going into Egypt the ancient Hebrews calculated time only by the moon. The Jews have had much trouble in keeping their calendar straight, and in its present form it is a day in error in each 218 years.

T. L. Parks, Murrayville, Ga. Route 2, is in his 73rd year, and was recently cured of a bad kidney and bladder trouble. He says himself: "I have suffered with my kidneys. My back ached and I was annoyed with bladder irregularities. I can truthfully say, one 50c bottle of Santal Midy cured me entirely." They contain no habit forming drugs. F. L. Curtis.

**RECEIVER IS APPOINTED.**

Business of Hartford Firm Ordered Continued By Court.

Hartford, Sept. 11—George C. Kimball has been appointed temporary receiver of the Pratt & Cady company of this city. He has been paced under bonds of \$100,000 and is to continue the business. Application for the receivership was made by Amos Whitney, one of the leading manufacturers of this city, a stockholder in Pratt & Cady.

This concern is located on Capitol Avenue and employs about 500 hands in the manufacture of brass valves. It has also an iron foundry.

At one time this was one of the leading industrial plants in Hartford. An effort was made three years ago to have it consolidated with a similar concern in Indian Orchard, Mass., but the local stockholders refused to ratify the deal.
